-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 25 January 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on 01/25/08 was filed after the mailing date of the non-final rejection on 06/20/07. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner. However, US 6431785 has been lined through since it has already been considered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 5, 6-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Melander 6,431,785. Melander shows apparatus for connecting an implement to a prime mover, the apparatus including a connector that is mountable on the prime mover (fig 1) and has at least one recess 26 for receiving a connecting pin 50 mounted on the implement to enable the connector to engage the implement, retaining means 30 (including a tail portion just below arrow 30 in figure 4) provided to, in use, hold the implement on the connector; and, having means is provided for mounting on the

connector a retaining element 42 positioned so that a head 40 of the retaining element serves to retain the connecting pin in the recess.

As concerns claim 2, Melander shows the retaining element has a tail portion 43 connected to the head 40 and the connector has a formation in which the tail portion can be inserted 46 and which serves to secure the retaining element on the connector with the head of the retaining element projecting into the recess adjacent the connecting pin.

As concerns claim 5, Melander shows at least a portion of the head is larger than the formation so that the head is unable to enter the formation (fig 3).

As concerns claim 6, Melander shows the head has a face that bears on a face of the connector after the tail portion has been inserted in the formation (fig 3).

As concerns claim 7, Melander shows the face of the connector is at least partly located in the recess figs 3 & 5).

As concerns claim 8, Melander shows the connector comprises spaced apart side walls joined together by a cross member that is prefabricated and in which the recess is formed before the cross member is joined to the side walls (fig 5).

As concerns claim 9, Melander shows the connector comprises spaced apart side walls joined together by a cross member in the form of a plate that is bent to form the before the cross member is joined to the side walls (fig 5).

As concerns claim 10, Melander shows the formation is formed in the cross member before the cross member is joined to the side walls (fig 5).

As concerns claim 11, Melander shows the connector has two recesses 30/32 and the implement mounts two connecting pins 16/18, a first connecting pin being held, in use, in one recess by the retaining means.

***Allowable Subject Matter***

4. Claims 3-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments filed 01/25/08 have been fully considered but they are not persuasive. Melander clearly shows what is considered the equivalent to applicants 60 with element 30. However, it is noted that applicants argues the hydraulically operated 60 may not be equivalently shown in Melander, but it is pointed out such details are not claimed. Thus the rejection stands.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
